EXPERIENCE

Senior Front-end Developer | InvestaX

Jan 2023 - Present, Singapore - Remote

Directly collaborating with the Technology Lead and Product team to deliver new key features and improve the UX of their Tokenization SaaS platform (*InvestaX Prime*). Also helped in the development of their crowdfunding platform (*IX Swap Launchpad*).

Web3 Developer | The Blox Labs

Apr 2022 - Jan 2023, Philippines - Remote

Pioneered the development of *SAVER*, a decentralized application for buying, staking, and donating *SAVER* tokens. Collaborated with blockchain developers to work on other crypto projects and websites.

Full-stack Developer | Teko Solutions Asia, Inc.

Jun 2020 - Apr 2022, Philippines - Remote

Contributed to the development of the Teko Platform and a Complete Order Management System (*COMS*). Adding new features, including a billing feature, and optimizing existing ones.

Front-end Developer | Impero Consortium Management Corp.

Feb 2019 - May 2020, Philippines - Hybrid

Built blockchain-based single-page applications, including a platform enabling offshore companies to register for blockchain operation licenses in the Philippines (*Blockchain Fintech PH*).

Web Developer | Binary Digital Advertising

Feb 2018 - Feb 2019, Philippines - Onsite

Developed and revamped multiple advertising websites. Created APIs for a library system and a mobile application for traveling.

Software Engineer | Suiterus Technologies Inc.

Apr 2016 - Feb 2018, Philippines - Onsite

Led the development of a Document Management System and an online bidding web application.
